## BRITISH FIGHTING GERMANS TO A STANDSTILL

### MAP SHOWING BATTLE AREA IN FRANCE

The joined arrows at the top of the map indicate the limits of the new front, along which the Germans are hurling quantities of gas shells preparatory to an attack. This sector is north of that in which the recent activity has been confined. The arrow further down indicates the recent attack along the Oise River, where the French have given some ground.

IN THE VAST SWEEPING SEMI-CIRCLE ABOUT MESSINES RIDGE POSITIONS ALL DAY SUNDAY AND TODAY THE BATTLE HAS RAGED WITH UNABATED FURY. WAVE AFTER WAVE OF ASSAULTING GERMAN INFANTRY BEING DEFEATED AND REPULSED.

### BRITISH WITHDRAW FROM NEUVE EGLISE AFTER DEFEATING ALL GERMAN ATTACKS GERMANS FOILED IN BAILLEUL DRIVES

LARGE RESULTS HINGED ON THE BATTLE ON THE MERVILLE SECTOR. BUT THE BRITISH HAVE, THUS FAR, BEEN SUCCESSFUL IN BEATING BACK FOES. NO LESS THAN SEVEN DESPERATE ATTACKS REPULSED.

(By Associated Press Dispatch)

The British lines on the Lys front near the Franco-Belgian border are holding against the terrific drive which the Germans are continuing to make upon them.

All around the sweeping semi-circle created by the enemy attack to the southwest of the Messines Ridge positions he was fought to a standstill yesterday and last night and in some localities the British positions were improved by counter strokes. The British finally withdrew from Neuve Eglise after beating off attack after attack.

Large results hinged on the battle on the Merville sector where the Germans have effected their furthest westward penetration. They are pushing here for Hazebrouck, occupation of which would cut off important railway connections of the British and make the holding of the line to the northeast extremely difficult. The Germans attacked no less than seven times in the Merville region, the desperation of the attack being evidenced by the fact that one assault was carried out by troops in five waves.

The Germans similarly have been foiled in their efforts to push in further in the Bailleul region and this important town is still in the hands of the British. Far to the southwest of the Lys front they have failed likewise in their attempt to drive in back of Bethune. The British in local operations here have advanced their lines and pushed the enemy back. They took 150 prisoners and some machine guns.

### FRENCH SUCCESSFULLY ATTACK

Paris, April 15.—(Associated Press Cable)—On the front above Montdidier the French made a successful local attack last night, taking prisoners, the war office announces.

### BRITISH REPULSE SEVEN ATTACKS

London, April 15.—(Associated Press Cable)—Seven attacks by the Germans in the Merville sector of the northern battle front have been repulsed by the British, who inflicted heavy losses on the enemy, it is announced officially.

Southwest of Bailleul the Germans temporarily penetrated the British positions but were driven out by a counter attack. The British have lost Neuve Eglise.

### BRITISH STORMING NEUVE EGLISE

With the British Army in France, April 15.—(Associated Press Cable)—The battle about Neuve Eglise, near the Belgian border, which has been retaken by the Germans, continued to rage today with the same intensity that has marked it for several days, and the British are pounding the Germans hard. Another assault on Bailleul four miles west of Neuve Eglise is expected momentarily.

### GOVINGTON LOSES

By Associated Press Dispatch.  
Washington, April 15.—The city of Govington, Ky., opposite Cincinnati, by an opinion in the Supreme Court today lost its 30-years fight to oust the South Covington & Cincinnati Railway Company from its streets.

### TOLEDO GETS FLAG

By Associated Press Dispatch.  
Cleveland, O., April 15.—The second week of the third Liberty Loan campaign opened with subscriptions

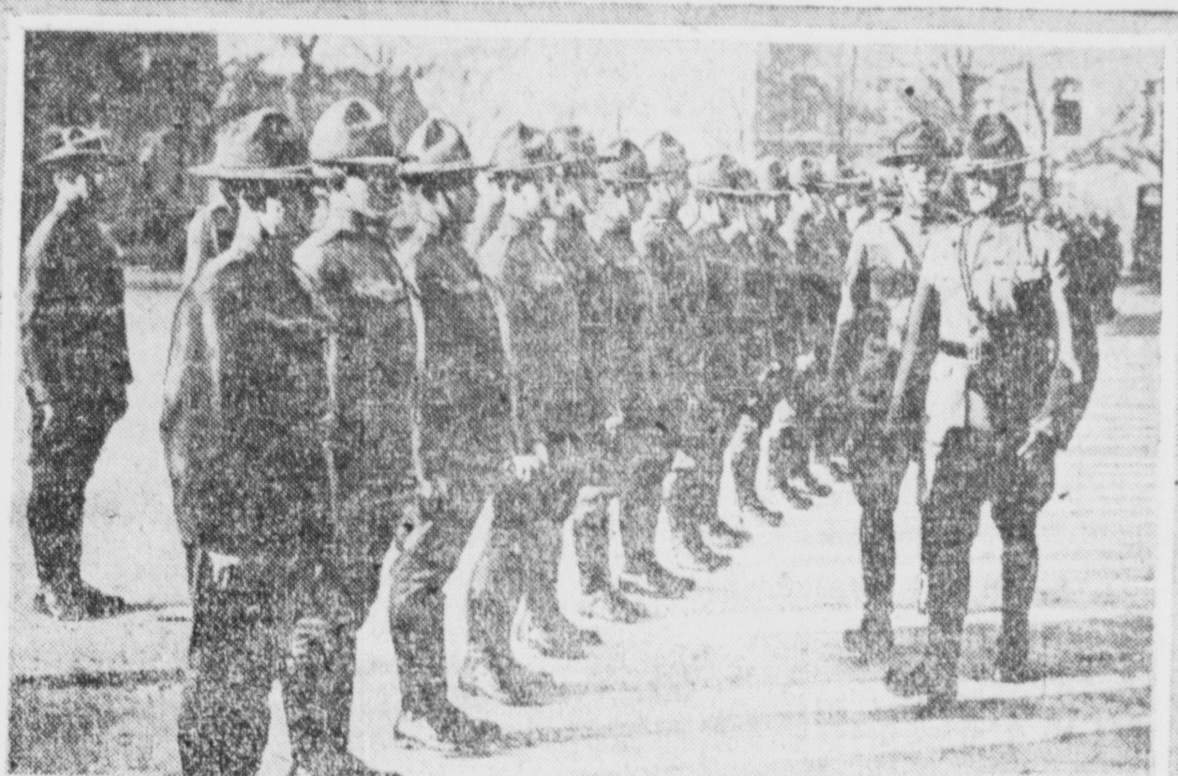

amounting to \$60,559,200 having been obtained.

The honor flag awarded to the first city with a population between 100,000 and 250,000 reaching its apportionment is flying in Court House Park, Toledo, today.

### KILLETS CASE ENDED.

By Associated Press Dispatch.  
Washington, April 15.—Upon the motion of Solicitor General Davis, the Supreme Court today dismissed the proceedings begun by the Government to have Federal District Judge Killets of Toledo, Ohio, charged with contempt with failure to obey a court order forbidding suspension of sentence in criminal cases.

## SORROWING FRIENDS TO TAKE BODY TO OLD HOME

Official Washington Turns from War Duties to Attend Funeral of Senator Stone.

By Associated Press Dispatch.

Washington, April 15.—Official Washington turned from its war duties today to attend the funeral of Senator William G. Stone of Missouri, chairman of the Senate Foreign Relations Committee, who died at his home here yesterday as the result of a paralytic stroke suffered last Wednesday.

It was announced the services would be conducted at four o'clock this afternoon, with the Reverend J. Forrest Prettyman, Chaplain of the Senate in charge. The family and a congressional committee will accompany the body to Jefferson City, Missouri, where it will lie in state Wednesday in the Missouri capital. Burial will take place at Nevada, Missouri, his old home.

Senator William J. Stone was in public life 45 years and during that long period probably engaged in as many political contests as any man of his time, ranking all the way from controversies over county offices to the broadest national issues.

At the entry of the United States into the war, Senator Stone performed the trying feat of antagonizing his own party administration and then realigning himself with it in a generally satisfactory manner. It was in connection with the bill proposing the arming of American merchant ships that he took sharp issue with President Wilson. He stood with the dozen Senators whose opposition caused the failure of that measure at the close of the 64th Congress, and brought down the denunciation of the President upon "the wilful twelve." While Senator Stone made no apologies for his course on that occasion he always contended it was in strict line with his duty as a Senator because in accord with his convictions, and as he believed, in protection of America's interests.

His opposition to the declaration

### BOHEMIANS CHEER WILSON

Amsterdam, April 15.—(Associated Press Cable)—Thousands of persons gathered in the streets of Prague, capital of Bohemia, on Sunday, denouncing the Germans and cheered the Entente and President Wilson, says a dispatch from that city today.

### APPEAL TO FARMERS TO SELL WHEAT

By Associated Press Dispatch.  
Columbus, O., April 15.—An urgent appeal to farmers to market all wheat in excess of seed requirements and flour needs was issued by State Federal Food Administrator Fred C. Croxson today. The increasing urgency of the wheat situation makes this request imperative, he said.

### STEAMER WRECKED ON VIRGINIA COAST

By Associated Press Dispatch.  
Baltimore, Md., April 15.—The Norwegian steamer Hermod has been wrecked off the Virginia coast with the loss of several of her crew, according to word received here today.

## AMERICANS FIGHT WITH GREAT VALOR

(Associated Press Cable)  
With the American Army in France, April 15.—American soldiers did brilliant work in the stiff fighting in Bulle Wood in the Forest of Apremont, Lorraine. An account of the engagement, which has just reached the correspondent through the French Army shows that at 4:30 o'clock in the morning, after a severe bombardment, 500 selected German troops made an assault and attempted to occupy a first line trench.

The French commander immediately organized a counter attack, in which American troops joined and after fierce fighting repulsed the enemy. Shortly afterward groups of Germans were seen to be creeping into the first line trenches of the American position which voluntarily had been left unoccupied. American soldiers dashed forward and engaged in grenade fighting and hand to hand encounters, in the course of which they displayed wonderful dash and coolness, and after a severe engagement repulsed the Germans. The enemy suffered heavy casualties and left 24 prisoners behind.

## THE TURNING POINT BEING REACHED IN BIG BATTLE

By Associated Press Dispatch.  
Washington, April 15.—The turning point in the battle on the west front is being reached, says the War Department's review of the military situation for the week ending April 13, published today.

The Germans have failed in the purpose to achieve victory in the field, the statement continues, and will soon be forced to resume their old tactics. "We must bear in mind," the review says, "that the enemy is waging a battle of annihilation. He is fighting today with the sole aim of annihilating the British armies. Thus, terrain conquered counts for very little. While it must be admitted that the German operations since the beginning of the present offensive have resulted in more than a mere plowing over of a part of allied trench system and the capture of local objectives along a wide front, nevertheless, the aim of the German higher command to obtain a decisive strategic success by these assaults, has not been attained."

## LIBERTY LOANS GREAT TOTALS STILL MOUNTING

By Associated Press Dispatch.  
Washington, April 15.—Liberty Loan subscriptions tabulated today at the Treasury, showed a total of \$620,947,550, which is \$67,000,000 more than was reported Saturday. This did not include reports from the Minneapolis District, which started its campaign today.

## CZERNIN RESIGNS POST AS PREMIER

Austria-Hungary's Foreign Minister Quits Task. Emperor Charles Accepts. Resignation Efforts for Peace Believed the Cause.

(By Associated Press Cable)

Amsterdam, April 15.—Czernin, the Austro-Hungarian foreign minister, according to a dispatch from Vienna, has resigned.

### RESIGNATION ACCEPTED.

Emperor Charles accepted the resignation and entrusted Count Czernin with the conduct of Foreign Affairs until his successor is appointed.

The report published by the French Government of the futile peace appeal sent out by Emperor Charles of Austria-Hungary in March, 1917, and the efforts of

the Emperor and the Austro-Hungarian foreign office to explain this letter to the satisfaction of Germany and the German Emperor, probably were the most potent influences in bringing about the resignation of Count Czernin.

Since he was appointed foreign minister in December, 1916, in succession to Baron Burian, Count Czernin has been very active in attempting to bring about peace, and the moderate tone of his speeches has been in sharp contrast with the German Chancellors and foreign secretaries. In addition to being foreign minister, Count Czernin was Premier and Chancellor of the Dual Empire. He is about 61 years old.

## CLOSE WATCH ON SUSPECTS

By Associated Press Dispatch.

Washington, April 15.—Many German and Austrian women are under surveillance by Government agents and will be arrested and interned as soon as President Wilson signs the bill which includes women in the class of enemy aliens. It was said today the number is more than 100.

## ENSIGN IS KILLED SEAPLANE ACCIDENT

By Associated Press Dispatch.

Washington, April 15.—Ensign Lloyd A. Perry, U. S. N. R., was killed in a seaplane accident in France, April 12th, the Navy Department today was advised.

## HIGH COMPLIMENT PAID LOCAL MAN

Out of thirty thousand sailors in training at Great Lakes Training School, Great Lakes, Illinois, four hundred have been chosen to take part in a musical comedy, "Leave It to the Sailor."

Emerson Chapman, who is in training in the Radio Division, has been selected as one of the four hundred, a compliment appreciated by friends here.

This musical production will be put on in the large auditorium at the school and then will tour the state of Illinois.

Young Chapman will be remembered as successfully taking leading parts in High School plays and amateur performances given in this city.

## GERMAN "KULTUR" IS TORN TO SHREDS BY LOCAL MINISTERS

Both at Grace M. E. and the First Presbyterian churches Sunday interest centered on the sermons delivered by Rev. Cherrington and Rev. Gage on "The Moral Aims of the War," as discussed by Sir George Adam Smith, President of Aberdeen University, Scotland, and President King, of Oberlin College, at a notable meeting held in Columbus last week.

The ministers made intensely interesting resumes of the subject matter as it came directly from these representatives.

The additional proofs of the barbarous cruelty with which the Germans had sought their vengeance on the Belgians brought convincing realization that the German philosophy was far from what the world had through centuries thought it and the boasted "Kultur" was but a camouflaged culture which had long deceived people and given to Germany false prestige. The day is past when it was deemed an honor to have a degree from the University of Berlin and the selfishness and greed of the German nation has been so evident that deceptions are torn away. So completely has the American public been awakened that the stamp "made in Germany" brands the article as undesirable.

Both ministers felt that they had been brought into additional touch with the war and its moral aims and effects by having attended this meeting in Columbus.

## Y. M. C. A. NOTES

The Christian Soldiers Bible class of the Y. M. C. A. went on a hike to Jasper last Saturday. About twenty went and all had a very enjoyable time. They went under the direction of Secretary Hays and dinner was cooked in the open.

After dinner the boys were given military drill, then they were divided into two sides for a sham battle. The side under Captain Kershner won from the side under Lieutenant Gester.

The Bible class is going along fine and there is good attendance at the

The Y. M. C. A. is in receipt of a letter from Lt. Robert Johnson, in which he speaks in glowing terms of the war Y. M. C. A. He speaks in a joking manner of the "Mosquitos that dig large holes in the ground when they light."

Spring football practice for the Y. M. C. A. team will start Wednesday afternoon at four o'clock. Anybody under the age of twenty-one may try out for the team. Hunt up your old suit and be there.

## DEATHS

### STUBBLEFIELD

Sarah Stubblefield wife of Adolphus Stubblefield died Sunday morning at 4 o'clock at the home on Rawling street, aged 50 years.

She leaves besides the husband and one child, two brothers, Patrolman Noah Bell, and a brother in Birmingham, Ala.

Funeral services will be held Wednesday afternoon from the home at two o'clock. Burial will be made in the Washington cemetery.

## HAS REMARKABLE CURIO COLLECTION

One of the most remarkable collections of curios in Fayette county is in the possession of John Duncan, grocer of Rock Mills, who has assembled the collection after many years of watchfulness and search for Indian relics and other specimens coming from a by-gone age, and which are of great value in throwing light on the habits of the races which occupied this continent hundreds of years before Columbus discovered America.

His collection contains fully 1,000 pieces, including darts, hammer stones, pestles, axes, beads, pipes, knives, scrapers, and a host of other articles made of flint or other stone. He also has a collection of quartz, including some of the most rare pieces ever found in Fayette county. Also petrified wood and other odd pieces.

The collection contains some exceedingly rare specimen of Indian relics, and a few have, so far as known, no duplicates in the state of Ohio and are worth many dollars to collectors, to say nothing of their almost priceless worth as additions to the great variety of reminders of the Stone Age.

Mr. Duncan prizes his collection very highly, and it never fails to interest the collector who visits his store and beholds the big collection. Many of the stones are worth several dollars each.

For the most part the collection was gathered in Fayette county, and much of it in the Rock Mills community, where the articles are taken to the Duncan store and there traded for candy or other goods, and go into what is probably the second best collection in Fayette county. Mr. Almer Hagler has the most complete and extensive collection of Indian curios in the county, much of which he has placed in the archives of the Ohio Archeological Society for careful preservation.

## REDOUBLED EFFORTS TO MISSING SHIP ARE ORDERED

Navy Department Still Has Hope that Long Overdue Collier, Cyclops, Will Be Located.

By Associated Press Dispatch.

Washington, April 15.—Orders for greater efforts to find the missing naval collier Cyclops, overdue from South American waters for more than a month, went out today to American ships. The Cyclops sailed from a West Indian port March 4 for America. She carried 57 passengers, 15 officers and 221 men, and a cargo of manganese.

So far not one word has come to clear the mystery of the collier's disappearance.

Secretary Daniels today, however, said that he still clung to the hope that the vessel would report, as many of the naval ships have done after they had been given up for lost.

NO NEARER SOLUTION.

Naval officials were no nearer this afternoon to solution of the disappearance of the Cyclops than they were three weeks ago, when anxiety over the safety of the ship first developed. The big cruiser has simply vanished from the sea.

Secretary Daniels said the Department had no word that would indicate the presence in southern waters of a German raider. It is the absolute silence of the radio that makes the case one of the most mysterious in naval annals. That fact alone inclines the officials to the view that the ship might have been captured by persons aboard, for in no other way would it have been possible to silence calls for aid.

## "BLOOEY" IT'S GONE UP

The German American Alliance Charter is Repealed.

By Associated Press Dispatch.

Washington, April 15.—Repeal of the federal charter of the National German-American Alliance was approved unanimously by the Senate Judiciary Committee. The bill of Senator King of Utah for annulment of the organization's charter was ordered favorably reported, despite the recent vote of the organization to voluntarily discontinue operations.

## SOLDIERS ARE KILLED IN WRECK

By Associated Press Dispatch.

New York, April 15.—Three soldiers were killed, ten seriously injured and fifty-five slightly injured early today in a wreck on the Long Island Railroad near Islip, New York. All of the dead and injured were said to be stationed at Camp Upton, at Yaphank. Spreading rails are said to have caused the wreck.

Later two soldiers who were seriously wounded have died in the hospital. Each of the five cars which rolled down a twenty foot embankment contained scores of soldiers, many of whom were bruised. Soldiers in the cars which remained on the track went to the aid of their companions.

The cars were all steel and to this is attributed the fact that casualties were comparatively few. Those who were killed were crushed under the car trucks.

Members of Signal Corps on the train climbed telegraph poles and tapping the wires sent out the call for aid.

## MORE MEN TO GO FROM THIS COUNTY

Some six additional men will be sent from Fayette county to the training camp at Chillicothe, between May 1st and 10th, under a new call issued by the government on Sunday, which requires the induction of 49,843 men into the service during the ten day period beginning May 1st.

Ohio's quota of the 49,843 men will be 2,060, and basing the estimate on the last call from Fayette county, some six men will be sent, and it is expected that the six men will be composed of a colored contingent.

## MOTHER SHIPTON'S PROPHECY IN 1485

There is something almost uncanny in this prophecy published in England in 1485, before the discovery of America and before any of the discoveries and inventions mentioned there in. The strange thing is that all the events predicted in the following poem, known far and wide as Mother Shipton's Prophecy, have come to pass except the end of the world as promised in the last two lines.

### PROPHECY

Carriages without horses shall go, And accidents fill the world with woe, Around the world thoughts shall fly In the twinkling of an eye. Waters shall yet more wonders do, Now strange, yet shall be true. The world upside down shall be, And gold be found at root of tree. Through hills man shall ride, And no horse nor ass be at his side. Under water man shall walk, Shall ride, shall sleep, shall talk. In the air men shall be seen In white, in black, in green. Iron in the water shall float, As easy as a wooden boat. Gold shall be found mid stone; In a land that's now unknown. Fire and water shall wonders do, England shall at last admit a Jew. And this world to an end shall come In eighteen hundred and eighty-one.

## No More Retreating

Field Marshal Sir Douglas Haig announces to the world, in his statement to the British troops, that the allied armies will take no further backward step, that they are to fight, regardless of cost, from this time on with their backs to the wall. "Fight to the end" he urges his brave soldiers.

Whether that statement means that the allies are hard pressed and, in desperation, must fight it out on the present ground or whether it means that the allied forces have concluded their strategic backward movement and have determined now to strike the long expected counter attack, are questions for the answers to which an anxious world must wait for developments.

Only the subsequent days of fighting, only the flowing tides of war can answer those questions. The anxious world hopes that the movement of the French forces to the relief of the British means that the allies are to assume the offensive. It may be weeks and it may be months before the world will know either the result of the battle, the plans of Sir Douglas Haig and General Foch or their hopes.

Once again we are called upon to wait in uncertainty while the god of war withholds announcement of his decision.

Since the announcement of Sir Douglas Haig, however, there has been a very manifest stiffening of the British resistance and several positive successes have been scored, the most important successes since the German offensive was launched more than three weeks ago.

Every development adds to the evidence that the present struggle is one which has for its objective the destruction of the opposing army. There has not yet been manifested, by either side in the titanic struggle, any desire to capture or to hold with the idea of establishing a base, for other than pressing and immediate needs, any position or any city. Both allies and Teutons seem determined to fight out the final battle to a finish on the plains of Picardy.

That being true we must not attach too much importance to the acquisition of mere miles of territory of no value.

It is quite likely, though not certain by any means, that the next week will see a decided change in the fighting.

There is no denying the fact that Haig's troops are worn and tired out with the awful strain of three weeks battling and the reserves must be sent into action soon. Neither is there any doubt that General Foch, with his magnificent French army, has been biding his time to strike. Whether that time has yet arrived no one can say. Everything indicates, however, that a change is near at hand. It is a crisis, the greatest crisis of the war. We must not be over-confident as to the outcome and neither must we be pessimistic because of the gravity of the situation.

## Clean Streets

Washington has emerged from a long and severe winter season, with streets and alleys, especially the former, in better condition, so far as cleanliness is concerned, than it has for many years. That, in view of the fact that all work of cleaning or keeping the streets clean was impossible through the winter season, is all the more remarkable.

As a matter of fact the heavy snows melting away in floods of water and the one or two extraordinarily heavy spring showers, we have experienced, contributed somewhat to bring about the present condition, but it is undeniably true that the street cleaning force has been busy, in a modest sort of a way, consistently and determinedly pegging away.

Catch basins have been cleaned and kept clean, gutters and sewers have been kept open and even that, if nothing more had been done has enabled the rains and melting snows to carry away a great amount of "dirt" which had accumulated.

There has been no elaborate street cleaning program adopted, there has been no extraordinary appropriation made for the work, there has been no talk or agitation.

Just a quiet, unostentatious doing of the small things, doing all that it was possible to do and not quitting entirely because big things were impossible.

At the present time it is unnecessary to place the credit for these very much appreciated results. The results are here to speak for themselves and it is not so important to give the credit for good results or place the blame for no results as it is to get the work done.

## Poetry For Today

### THE KAISER'S MISTAKE

The Kaiser sat on a very high hill,  
And the thoughts in his head ran free  
Thinks he I will show them that Kaiser Bill  
Can clean up the land and the sea.

So he marched his sailors and soldiers bold,  
And he said to the world, it's my will  
To beat you all up in a very short time  
And you'll all bend your proud heads to Bill.

He first struck at Belgium and then struck at France,  
And he thought he would do them great harm;  
But the French they got busy and made William dance,  
As they pushed him right back at the Marne.

Then the British mustered their power and their might,  
And the Boches began to get hell,  
And dear Kaiser Bill and his old German god,  
The big word disaster did spell.

But wait till our Uncle from over the sea  
Brings millions of soldiers to fight;  
They sure will make William feel awfully sick,  
And he'll find that his thoughts were not right.

For right must conquer and wrong cannot live  
In this land of the free and the brave;  
And many brave soldiers their lives they will give  
That right and mankind may be saved.

—A Slater, Chicago.

## RUSSIANS SNIP JAPS

(Associated Press Cable)  
Tokio, April 15.—Several instances of Russian snipers against Japanese patrols in Vladivostok are reported in a dispatch in that city. One Russian was arrested. The message also reports that the local council of soldiers and working men have telegraphed to headquarters urging the dispatch of armed German and Austrian prisoners to Vladivostok as reinforcements.

Bolshevik leaders are quoted as declaring that the Japanese action of landing forces in Vladivostok marks the beginning of the carrying out by the Japanese of their long cherished ambition in Siberia.

Although it has been confirmed that a small British contingent has been put ashore at Vladivostok, the report that American Bluejackets had been disembarked is unconfirmed and is not credited here. It is understood here that the Soviet at Khabarovsk has protested against the landing of both the British and Japanese.

## CHILDREN KILLED

By Associated Press Dispatch.  
Washington, April 15.—Three children were killed when the German submarine bombarded the port of Monrovia, capital of Liberia, on April 10, the State Department was advised in a report today from American Charge De Affairs Bunday. Three persons were injured.

## BOMB PRISON CAMPS

By Associated Press Dispatch.  
Havre, France, April 15.—An enemy airplane succeeded in passing observation posts and flew over this district, says an official note issued here today.

Several bombs were dropped near one of the camps for German prisoners, but there were no casualties.

## AMERICAN LEAGUE

Washington, April 15.—The American League Baseball season was opened here today with Washington playing New York.

## SORROWING

(Continued from page one.)

of war on Germany was also pronounced, and he declined to take charge of the war resolution as would have been expected of him as chairman of the committee on Foreign Relations. He did not seek however to place obstacles in the way of a consideration and transferred the leadership to Senator Hitchcock, next ranking Democratic member of the committee. His attitude on these two questions was symbolic of his position toward the world war. He believed that American participation should be avoided if possible, but when the die was cast for war, he changed over night. He took his place with the supporters of war measures and consistently maintained that attitude. He held it incumbent upon him to stand with his country regardless of his own views.

Notwithstanding his pacifist attitude, Mr. Stone was made chairman of the committee on Resolutions at the St. Louis convention in 1916 and to him fell the difficult work of shaping the platform on which President Wilson was re-elected. He worked on that almost constantly for forty-eight hours, and never lost his composure. As illustrating his capacity to say "no" in an inoffensive way, an incident may be quoted. The suffrage plank was the subject of much discussion and, as chairman of the committee, the Missouri senator was frequently called upon by delegations of advocates of equal rights. On one occasion they were especially persistent. Senator Stone could not say what the committee would do but he did not make a speech. He simply said: "Girls, you are too blamed impetuous."

They went away good naturedly if not satisfied.

A Kentuckian by nativity, born May 7, 1848, Senator Stone removed to Missouri, where he graduated from the Missouri University and was admitted to the bar in 1869. He immediately began to manifest an interest in political affairs, and in 1873 was prosecuting attorney of Vernon county.

### Social and Personal

Announcement has come to Columbus of the marriage on March 25th of Lieutenant Draper M. Daugherty, son of Mr. and Mrs. Harry M. Daugherty, 481 East Town street, to Miss Jean Bowers, of Martinsburg, W. Va. The bride some years ago was a guest of Mr. and Mrs. Daugherty and their daughter, Mrs. Ralph F. Rarey, in Columbus. Her father was fish commissioner of the United States during the McKinley, Roosevelt and Taft administrations, and is now a member of congress from the Martinsburg, W. Va., district. Lieutenant Daugherty and his wife are for the time being in the East near a military camp in New Jersey. The bridegroom is a first lieutenant and adjutant to Major A. M. Graham, in charge of the Third Division Supply Trains, and is supposed to sail with his division shortly.—Columbus Sunday Dispatch.

The announcement is attended with no small interest in this city, where the bridegroom, the grandson of Mrs. Jane Daugherty and nephew of Mr. M. S. Daugherty, is well known.

The Junior Cadets will drill again tonight at seven-thirty. Secretary Days will have charge of the drill from now on in place of Sergeant Steffy. Come on boys and learn the military drill.

Company A will drill on Tuesday night at seven-thirty. The company will be inspected by Cadet Major Paul C. Craig of Ohio Wesleyan University. Every member is requested to be in his place so there will be a full company. The public is invited to view the inspection. Several new recruits will start the drill tomorrow night. These will not be put in with the rest of the company to start but will be instructed by themselves. Now is the time for all boys over fifteen to get into the company. Here are some of the different things that will be taken up during the summer. Close order drill, extended order drill, bayonet exercises, butts manual, and several other things.

A dance will be given at the G. A. R. hall in Mt. Sterling Friday evening of this week, for the benefit of French orphans.

### TAXPAYERS URGED TO FILE RETURNS WITH THE AUDITOR

County Auditor Pine's office is a busy place these days with the returns for taxation coming to be filed and tabulated. These new methods assessing laws entail a great amount of extra labor on the Auditor's office, a great deal of work formerly done by the assessors must now be done by the Auditor and his assistants notwithstanding the new laws place the burden of listing on the individual property owner.

The returns Auditor Pine asserts are coming in very good shape, but he states that the number now on file is not nearly so large as it should be at this time.

He calls attention to the fact that not only by postponing making his return, is the individual taxpayer adding to the rush of the last hours of business in the Auditor's office, but they are risking being late with their returns and not being able to get them filed by May first, forfeiting their right to exemption.

The County Auditor urges taxpayers to hurry up their returns not only as a favor to the officials to assist in getting the important work done properly and promptly, but to avoid the possibility of oversight and the loss of exemption.

### SPRING MEETING OF MUCH INTEREST

The Spring meeting of the Chillicothe Presbyterian, held at South Salem, Presbyterian Center of earlier days was an event of note worthy interest of the past week.

There was a good attendance, every courtesy extended by the women of South Salem and vicinity and splendid program.

Mrs. E. W. Patterson, of Greenfield was re-elected President; Miss Anna Welch, Vice Treasurer; Miss Winifred Caldwell, Secretary. Three officers were re-elected from this vicinity; Mrs. G. M. Ustick, First Vice President; Mrs. Austin F. Hopkins, Home Corresponding Secretary; Mrs. W. Q. Kinkaid, of Bloomingburg, Class Study Secretary.

Miss Anna May Parrett, of Lyndon, was re-elected Young People's Secretary.

Next year's meeting will be held in Bainbridge.

### IS SERIOUSLY ILL AT CAMP SHERMAN

Mr. Elmer Vance and son Ray, south of town, were called to Chillicothe, Sunday by the very serious illness of Mr. Mallie Vance, at Camp Sherman. ## LIEUT. B. E. PAUL TELLS OF LIFE ON BATTLEFRONT

Lieutenant Billie E. Paul, writing from "Over There" to a friend in this city, discusses a number of things that are radically different from what they are in this country—"God's country."

First of all comes the subject of Pie—a favorite one with Lieutenant Paul. Then comes heat, light, trenches and sleep. The letter follows:

Somewhere in France,  
March 14, 1918.

Dear Friend:

Feel like telling a few things that are on my mind this afternoon and you will be the unlucky one so get ready to listen to my tale of woe.

This war is going to change many things; its going to change me a little, and that you know is going some. My mother more than once is going to say "Billie why don't you go out more? Go to a picture show and have a good time," and I am going to draw up my easy chair a little closer to the fire and say, "I don't want to go. I'm having a good time, all I want is home, just home."

Lot of us are not going to kick on the cats or the sleeps, we will be satisfied to sleep in the barn. Our barns, you know, are much nicer and much warmer than most houses in France. I am not going to kick if pie crust is burned every day. Pie—that sure is a blessed word, "Pie." Just say it to yourself, PIE! Easy to pronounce, but it sure looms up big over here, PIE!

When I get home I am going to have a big banquet. I'll be the only one there. All that will be served will be pie, and more pie. Oh what a wonderful thing pie is. PIE! and Mr. Frank Fullerton run together not in a literal way, but if you will remember that on my return from the "cruel" Mexican war he presented me with a pie, right at the depot. He was a real man; he didn't make me wait until I had kissed every one, he was on the job.

HEAT. Have you ever stopped to think what heat means? Not the

shortage of coal you all have had in Ohio this winter, but the absence of heat, being in a stone barn, very damp and very dark each morning. You have to pound your shoes with a club to get them soft enough to pull on, walk all day in the snow and do the same thing over each night. You might have been chilly in Ohio, but I'll bet if I had been there and in my present health and the C. H. & D. was still doing the same old business, I sure would have made several coal dealers wonder where my trade had gone. That's right, boys, pull your chairs up closer. I understand the boys at Camp Sherman awoke one morning and found the radiators cold and at times they have to drill outdoors with their overcoats on.

LIGHT! All you do at home is to step in the front door at midnight, turn a button and daylight is on, and once a month go down and tell Mose you can't understand why your light bill was \$2.08 when you were in Columbus half the month. Then to ask in your queer way if they oil the meter. Over here we have now and then—mostly then, a candle. You will see eight or ten men around one little candle, one they bought themselves at double the price they should be, all because our supplies have not caught up with us. No lights in the streets. If you should go out with a light Boom—airplane over head lets you know they have seen you; window shutters all up and not a speck of light any place. The darkest night I ever saw in the U. S. is by comparison the lightest I ever saw in France. I really can't understand how it gets so dark over here and just think you are not going to have any lights on moonlight nights and on other nights from 11:00 p. m. until 5:00 a. m.

TRENCHES! Only one I ever saw before coming over here was when they laid the water mains at home and I wondered how a man could stay in a ten foot ditch that smelled like gas. You should see ours! Every time it rains half of them fall in takes all our time fixing up, then along come a shell and ruins a whole weeks work. They are so different in many ways from that water pipe ditch I was telling you about. In ours we have running water, but its loose water, not confined in any pipe. We also have nice large fat rats, real tame rats—the kind that walk over your face at nights. Fleas—they can jump further than any I ever saw on any dog, and bite worse than a dog. Cooties, Oh, Boy! each one has a black stripe down his back and each leg. I have never seen a little one because we all are so fat they grow life-size over night. After you get out of the trenches take a bath and change clothes, you are sure lonesome for about three days—then you get a new supply.

One of the men said the other day that when he got home he was going to build himself a dugout in his back yard and on nights he couldn't sleep he was going to get in it and have his wife stand at the entrance and throw grenades at the door until he went to sleep.

Did you ever go to sleep and wake up in the middle of the night to hear some one yelling "FIRE". And to find it was your own home; then to remember also I was on the department and wouldn't be satisfied until I had chopped every thing down! Well change it all from a nice home and nice warm bed in God's country, to this; a dugout, 50 feet deep, six inches of water in it; cold and damp; snow outside; shell fire always trying to dig you out—perhaps dreaming of home. All at once you hear the dreadful cry "GAS" then the Klaxon horn sounding its warning and you are so confused for a second you can't find your gas mask. All your past life flows by and at last you find the mask and adjust it—then stumble up the stairs to take your place in the trench and wait for the Boche to come.

That is trench life. And the Germans started all this. They call it war. They do all these things and worse. I my self have seen some of the unprintable things they have done.

Now you folks at home don't kick any more. These boys over here are going through this without a whimper. They will be game to the finish. All are alike. They fuss over the little things, so do the English and French. That is what makes them real soldiers.

We are all fat and sassy, pretty well satisfied, have all we want

to eat smoke and wear, the Y. M. C. A. and Red Cross—I'll not try to tell you any thing about them. Its beyond me. William J. Bryan does not sling enough English to give them all thats coming to them.

This isn't a letter, it sonds like a lecture. Will cut it out. Be good and go to a picture show for me.

Yours truly,  
BILLIE.

P. S. Please send over three million soldiers this summer we want to clean up the Boche and get to dear old HOME.

## FAMOUS FISHING SPOT IS SPOILED

One of the most famous fishing spots in Fayette county—the deep water above the dam at Rock Mills, has been spoiled to a large extent, by the water receding several feet as result of the old dam being carried away by the ice during the past winter. Two large sections of the dam having given way under the big gorge that formed at that point.

Not only has the receding water caused the stream at that point to lose much of its attractiveness as a fishing pool, but the receding water has made it necessary to operate the Day mill by steam power.

Whether the dam will ever be reconstructed is not known, but the indications are that it may not be rebuilt, unless for more important purposes than operating the present mill.

The possibilities of creating a tremendous water power at Rock Mills are many, and a dam 12 feet high is possible at that point, while a short distance south of the point a dam of even greater height is possible.

## ROAD IN URGENT NEED OF REPAIR

The plan for rebuilding the Columbus pike from this city to the county line near Cooks Station is decidedly welcome news to persons who frequently use the highway, as the road, for the most part, is in urgent need of rebuilding.

Much of the road is virtually worn out, and with a little heavy traffic during wet weather, would rapidly go to pieces.

The work of rebuilding the road will not begin before next spring, it is understood, although virtually all steps necessary for actual work will be taken before that time so there shall be no unnecessary delay.

The Commissioners of Pickaway county are proceeding with their part of the improvement, and have asked for state aid to complete the four or five miles in that county.

Madison county also is preparing to complete her part of the improvement.

When the three counties finish their respective parts of the road, it will offer the most direct route to Columbus, cutting off several miles between this city and Columbus over any other possible route.

## LITTLE DAMAGE TO GROWING WHEAT

There has been very little damage to the wheat in Fayette county, and at the present time all indications that the crop will be damaged by freezes later in the spring, are very small, so that it can be predicted with a great deal of assurance that the crop, will be large if rain is sufficient from now on.

The acreage in Fayette county is far greater than last year, and the condition of the wheat is exceptionally good generally, only a few fields having suffered severely from the extremely bad weather, and these were probably planted too late for the wheat to obtain a good footing.

Farmers are more than pleased with the condition of the growing wheat, and anticipate a good yield.

## This Is HER Contribution To the Cause of Liberty

American mothers in all parts of the country are GIVING their sons to make the world safe for democracy. They are giving what is most precious to them, their own flesh and blood, to stand between us and the enemy.

Shall we then hesitate to LEND (at liberal interest) our money when they GIVE their sons?

Every Liberty Bond we buy helps to end the War and to bring safely home to the mothers of America their brave sons.

When you think that others are offering life itself, you must surely realize that the least you can do is to lend money, to lend it at good interest with the absolute certainty of getting every penny back. What an easy way to be patriotic—and yet how important.

So don't delay another day. Buy as large an amount of Liberty Bonds as you possibly can NOW.

Just think of the mothers of America and what they are giving. You know some of them. Don't you want their sons to be safeguarded in every way and to return home as soon as possible?

Money is needed to win the War and every day saved means hundreds—yes, thousands—of lives saved.

YOU will do your share now. Of course you will.

## GREAT ACREAGE OF CORN IS INDICATED

An acreage of corn that will be in excess of that of last year is indicated in Fayette county, where the farmers have their work well in hand and have the greatest amount of plowing done that the county has probably ever witnessed on April 15th.

Tens of thousands of acres have been broken for corn, and the work continues with each favorable day,

so that when corn planting time comes there will be no delay in placing the planter at work on time, keeping the upper hand of the work throughout the season, providing weather conditions are favorable.

The shortage of labor apparently is having no appreciable effect on Fayette county farmers, many of whom are working a little longer and harder each day in order to produce every possible bushel of grain and pound of wheat that is possible.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

## BIG COLLIER CYCLOPS IS LONG OVERDUE

Washington, April 15.—The big American naval collier Cyclops, carrying 47 passengers, 15 officers and 221 men in her crew, has been overdue at an Atlantic port since March 13, the navy department announced.

The vessel was last reported at a West Indies island March 4, and extreme anxiety is entertained as to her safety. The vessel was bringing a cargo of manganese from Brazil.

Alfred M. Goettschals, United States consul general at Rio de Janeiro, was the only civilian among the passengers on the collier, the others being two naval lieutenants and 54 naval enlisted men returning to the United States. The Cyclops was commanded by Lieutenant Commander G. W. Worley, United States naval reserve force.

The Cyclops left the West Indies with one of her two engines damaged, but the department said this fact would not have prevented her from communicating by radio, and all efforts to reach her by that means have been unsuccessful. A thorough search of the course which she would have followed in coming to port has been made and continues, it was announced.

There has been no reports of German submarines or raiders in the locality in which the collier was, the department's statement said. The weather had not been stormy and could hardly have given the collier trouble.

The fact that the collier had been missing for nearly a month became known here April 11. The naval censor requested the press not to publish the fact on the ground that the ship had not been given up for lost,

and that to publish the fact that she was overdue might expose the Cyclops to submarine or other enemy attack while she may be disabled on the high seas. The official announcement by the navy does not give the ship up for lost, but merely says "the navy department feels extremely anxious as to her safety."

## LATE CASUALTY LIST

Washington, April 15.—The latest casualty list contained 67 names, divided as follows: Killed in action, 10; died of wounds, 3; died of disease, 4; died of accident, 2; died of other causes, 2; missing in action, 4; seriously wounded, 11; slightly wounded, 31.

The names of eight officers appear in the list. Captain J. F. Hardesty and Lieutenants John S. Abbott and Harold A. Goodrich are missing in action; Lieutenant John J. Galvin was killed in action; Lieutenant Edmund Patton Glover died from wounds; Lieutenants Harold B. Gray and Martin Chambers were wounded severely and Lieutenant Edward A. Christensen was wounded slightly.

## PROTECTING FENCE ALONG EMBANKMENT

The work of erecting a protecting fence along the embankment on both sides of the bridge over Paint creek on the Chillicothe pike, is under way, and when the work is finished a substantial plank fence will offer considerable protection to prevent automobiles and other vehicles taking an unceremonious plunge down the steep bank.

The embankment was increased considerably when the road was improved a year or two ago, and since the pike was paved the speed along that section of the road has trebled. The fence will extend some 200 yards east of the bridge and about 100 yards west of the structure.

## PLEASED WITH HIS JOB

The Herald is in receipt of a letter from William R. Walker, who resigned from the local Post office force several months ago to take a Government position in Washington, D. C. Mr. Walker writes that he is getting along the best kind and likes the work, which is welcome news to his friends in this city. He adds a bouquet appreciated by the Herald when he says, "your paper has proven a great help in keeping me in touch with the daily happenings of the home city, and I would not be without its daily news."

## MAKING HEADWAY ON NEW BUILDINGS

Contractor Mast is making good headway on the two new centralized school buildings in Paint township, both structures being up to the top of the second floor and in a condition which makes rapid headway possible. The buildings will be finished as speedily as possible and opened for use next fall.

Both buildings present a most attractive appearance and when finished will be decided improvements over the "Little Red School House," as well as adding dignity to the two villages of Yatesville and Bookwalter. Both structures have ample yard room and will be used as community centers as well as for school purposes.
